

Norway Gear List

Note on Equipment List: For this trip, it's important to have layers appropriate for ski touring, and also for aboard the boat. Please pack what you need to be comfortable, but not overly redundant. Temperatures can vary dramatically this time of the year, especially when we are sailing. We have access to the engine room to dry boot liners, gloves, etc and there is a wood stove in the galley for drying clothing and skins. Please let us know if you have questions or concerns.
